

EconoMixer 150™

The EconoMixer™ 150 is designed for speed, accuracy, and cost savings. Simply insert the unit into a 5 to 55-gallon container of coolant concentrate and connect a water line to the unit. The adjustable needle valve/dial permits any ratio required for instant uniform concentrations. The unit requires 25 pounds of water pressure to operate.

Key Features

- Mix ratio of 15:1 to 45:1
- Reduces wasted coolant
- Saves time, money, and space
- Accurately mixes water and coolant concentrates
- Ends hand batching and guesswork.
- No more tipping drums
- Can be used with either 55 gallon drum or 5 gallon pails
