

TubeTastic!™

The Abanaki TubeTastic! oil skimmer can be used on machining centers with little or no access to the coolant sump from above.

This unit can skim oil from chip conveyors or even totally enclosed machining centers.

The TubeTastic! can be easily mounted on the side of virtually any machining center coolant sump. By use of an existing opening or by making a small access cutout, the collector tube runs through the surface of the coolant and collects the unwanted oils. The oil then flows out the discharge tube into any waste oil container for easy disposal.

Standard Features

- Fan cooled continuous duty motor
- Oil pickup rate of up to 1½ g.p.h.*
- Works in places where other skimmers can't
- Standard tube lengths in reach: 6", 12", 18" and 24". Longer lengths available

*Based on SAE 30 motor oil at ambient temperature

Technical Information

Dimensions:	4" W x 6" L x 6" D.
Weight:	6 lb.
Motor Type:	110v, 1ph, 60Hz.
Max. Operating Temp:	150°F, 66.5°C.
